Q: Do you ever cut yourself?

A: Yes! But never while making woodcuts

Q: Do you have to think backwards?

A: You think backwards

Q: What happens if you make a mistake?

A: Since I have an artistic license, I just change the design

Q: What kind of wood do you use?

A: Usually cherry or maple, but no wood is really safe around me

Q: Why woodcuts?

A: It's an energetic and feisty process, the wood is stubborn and the hard work is addicting.

I fell in love with the honesty and simplicity of the wood, the pure inks and the beauty of paper,

and the rest, is history...
